PROFILE SUMMARY

Experienced PHP and Developer skilled in PHP, CSS, Bootstrap, JavaScript, React, Node.js, HTML, Tailwind, SQL, and MongoDB. Currently contributing to Cloudeq's projects with 1 years of expertise. Demonstrated proficiency in independent and collaborative work, with a commitment to mastering new technologies and addressing intricate challenges.

EDUCATION HISTORY

Post Graduation

Course	MCA(Computers)
College	Jagran Institute Of Management, Kanpur
Year of Passing	2023
Grade	78%

Graduation

Course	BCA(Computers)
College	Chhatrapati Shahu Ji Maharaj University (CSJMU)
Year of Passing	2021
Grade	61%

WORK EXPERIENCE

Mar 2023 to Present

Associate Software Engineer at Cloudeq

- Developed applications using Front-end technologies including HTML, CSS, JavaScript, React, Angular, and Bootstrap.

- Utilized Back-end technologies such as PHP, Node.js, and .PHP Core in application development Like(zabihah restaurant).
- Managed and worked with Databases including SQL Server and MongoDB.

PROJECTS

Zabihah (On-Demand Halal Food Delivery)

Role: Backend Developer (PHP)

Integration with Third-Party Services:

SendGrid Integration: Implemented functionality to send emails using SendGrid's API (e.g., order confirmations).

UberEats Integration: Developed functionalities to integrate with UberEats for order fulfillment and delivery management

Twilio Integration: Integrated Twilio API for sending SMS notifications to users (e.g., order updates).

User Authentication:

Signup Check: Implemented logic to identify the login type (phone, email, login_ids) and handle user authentication accordingly.

Filters: Added checks for filters like distance and customized order specifications.

Additional Skills Demonstrated:

SQL Queries for Search API: Wrote efficient SQL queries to enable users to search for restaurants or food items based on specific criteria within the Zabihah application.

Frontend Development: Worked with React to implement login functionality and forms. Utilized Bootstrap, HTML, and CSS to develop the website. Handled login and sign-in checks for different users, including email and SMS notifications.

These contributions demonstrate my proficiency in backend development (PHP) and my ability to deliver solutions that improve the overall user experience for the Zabihah application.
